SOLIDWORKS®

Routing: Piping and Tubing

Dassault Systèmes SolidWorks Corporation
175 Wyman Street
Waltham, MA 02451 U.S.A.

© 1995-2025, Dassault Systemes SolidWorks Corporation, a Dassault Systèmes SE company, 175 Wyman Street, Waltham, Mass. 02451 USA. All Rights Reserved.

The information and the software discussed in this document are subject to change without notice and are not commitments by Dassault Systemes SolidWorks Corporation (DS SolidWorks).

No material may be reproduced or transmitted in any form or by any means, electronically or manually, for any purpose without the express written permission of DS SolidWorks.

The software discussed in this document is furnished under a license and may be used or copied only in accordance with the terms of the license. All warranties given by DS SolidWorks as to the software and documentation are set forth in the license agreement, and nothing stated in, or implied by, this document or its contents shall be considered or deemed a modification or amendment of any terms, including warranties, in the license agreement.

For a full list of the patents, trademarks, and third-party software contained in this release, please go to the Legal Notices in the SOLIDWORKS documentation.

Restricted Rights

This clause applies to all acquisitions of Dassault Systèmes Offerings by or for the United States federal government, or by any prime contractor or subcontractor (at any tier) under any contract, grant, cooperative agreement or other activity with the federal government. The software, documentation and any other technical data provided hereunder is commercial in nature and developed solely at private expense. The Software is delivered as "Commercial Computer Software" as defined in DFARS 252.227-7014 (June 1995) or as a "Commercial Item" as defined in FAR 2.101(a) and as such is provided with only such rights as are provided in Dassault Systèmes standard commercial end user license agreement. Technical data is provided with limited rights only as provided in DFAR 252.227-7015 (Nov. 1995) or FAR 52.227-14 (June 1987), whichever is applicable. The terms and conditions of the Dassault Systèmes standard commercial end user license agreement shall pertain to the United States government's use and disclosure of this software, and shall supersede any conflicting contractual terms and conditions. If the DS standard commercial license fails to meet the United States government's needs or is inconsistent in any respect with United States Federal law, the United States government agrees to return this software, unused, to DS. The following additional statement applies only to acquisitions governed by DFARS Subpart 227.4 (October 1988): "Restricted Rights - use, duplication and disclosure by the Government is subject to restrictions as set forth in subparagraph (c)(l)(ii) of the Rights in Technical Data and Computer Software clause at DFARS 252-227-7013 (Oct. 1988)."

In the event that you receive a request from any agency of the U.S. Government to provide Software with rights beyond those set forth above, you will notify DS SolidWorks of the scope of the request and DS SolidWorks will have five (5) business days to, in its sole discretion, accept or reject such request. Contractor/ Manufacturer: Dassault Systemes SolidWorks Corporation, 175 Wyman Street, Waltham, Massachusetts 02451 USA.

Document Number: PMT2612-ENG

Contents

Introduction

About This Course 2
Prerequisites 2
Course Design Philosophy 2
Using this Book 2
About the Training Files 3
Conventions Used in this Book 4
Windows 4
Use of Color 5
Graphics and Graphics Cards 5
Color Schemes 5
More SOLIDWORKS Training Resources. 6
Local User Groups 6

Lesson 1:
Fundamentals of Routing

What is Routing: Piping and Tubing. 8
Review Lesson 8
Types of Routes 8
Routes 9
Routing FeatureManager 10
External vs. Virtual Files 10
Virtual Components 10
File Names in Routing 11
Routing Setup 15
Routing Add-in 15
Routing Training Files 15
Routing Library Manager 16
Routing File Locations and Settings. 17
General Routing Settings 18

Lesson 2: Piping Routes

Piping Routes 22
Typical Piping Route 22
Route Sketch 23
Pipes and Piping Components 24
Pipes 24
End Components 24
In Line Components 24
Other Types 25
Routing Assembly Templates 26
Creating a Custom Routing Assembly Template 26
Selecting a Routing Assembly Template 27
Creating a Piping Route 27
Route Properties Dialog 28
Auto Route 33
Route Specification Templates 34
Creating Route Specification Templates 35
Using Route Specification Templates 36
Exercise 1: Creating Templates 37
Exercise 2: Multiple Piping Routes 1 38

Lesson 3: Advanced Piping Routes

Advanced Piping Routes 42
Adding Alternate Elbows 49
Editing a Route 52
Using the Route Along Relation 52
Isolate Options 54
Using Piping Hangers 56
Routing Along Existing Geometry 58
Exercise 3: Multiple Piping Routes 2 63

Lesson 4: Piping Fittings

Piping Fittings 68
Drag and Drop a Fitting 68
Using Planes in Routes 71
Split Route to Add Fittings 71
Orienting In Line Fittings 72
Adding Tees at Junctions 74
Remove Tube/Pipe 75
Creating Custom Fittings 79
Replacing Piping Fittings 81
Add Fitting 82
Coverings 85
Exercise 4: Piping Fittings 89
Exercise 5: Piping on a Frame 91

Lesson 5: Using SOLIDWORKS Content

Using SOLIDWORKS Content 94
Adding Content 94
Content Files 96
Custom Library Naming 99
Virtual Clips 100
Components Used in the Routes 101
Exercise 6: Using SOLIDWORKS Content 107

Lesson 6: Tubing Routes

Tubing Routes 112
Typical Tubing Route 112
Tubes and Tubing Components 113
Tubes 113
Terminal Components 113
In Line Components 113
Flexible Tubing with Auto Route 114
Orthogonal Tubing Routes with Auto Route 115
Orthogonal Tubing Solutions 116
Bend and Spline Errors 117
Bend Radius Too Small 118
Export Pipe/Tube Data 119
Using Envelopes to Represent Volumes 120
Start Route and Add to Route 121
Routings Tubes Through Clips 123
Repairing Bend Errors 125
Flip Direction 126
Repair Route 126
Re-route Spline 127
Select Using Envelope 128
Route Segment Properties 131
Tubing Drawings 132
Rename 132
Save to External File 132
Exercise 7: Orthogonal Tubing Routes 135
Exercise 8: Flexible Tubing Routes 139
Exercise 9: Orthogonal and Flexible Tubing Routes 143

Lesson 7:
Piping and Tubing Changes

Piping and Tubing Changes 148
Procedures for Tubing and Piping 148
Change Route Diameter 149
A Note About Dimensioning Route Geometry. 154
Custom Pipe/Tube Configurations 156
Pipe Penetrations. 157
Flange to Flange Connections. 159
Pipe Spools 160
Spools in Drawings. 163
Using Gaskets 163
Copying Routes. 164
Mating Routes. 164
Adding Slope 167
Editing and Removing the Slope 167
Editing Piping Routes 169
Using Threaded Pipe and Fittings. 169
Deleting and Editing Route Geometry 170
Editing for Obstructions 174
Moving Fittings With the Triad 174
Using Guidelines with Pipe Routes 175
Guideline Actions 175
Piping Drawings 177
Pipe Drawing 177
Drawing Tools 177
Exercise 10: Create and Edit Threaded Pipe Routes 184
Exercise 11: Using Pipe Spools 190

Lesson 8:
Creating Routing Components

Routing Library Parts 192
Libraries 192
Piping 192
Threaded Piping 196
Tubing. 197
Assembly Fittings 198
Cable Trays. 198
Electrical Ducting 199
miscellaneous fittings 200
HVAC. 200
HVAC. 201

Creating Routing Library Parts 202
Pipe and Tube Components 202
Pipe vs. Tube Components 202
Copying Routing Components 202
Creating a Pipe Using Copy and Edit 203
Routing Library Manager 205
Routing Component Wizard 205
Fitting Components 209
Using the Routing Component Wizard 209
Routing Functionality Points 210
Connection Points 210
Routing Points 210
Routing Geometry 211
Part Validity Check 212
Excel Design Table 212
Design Table Check 213
Component Attributes 214
Configuration Properties 214
Part Properties 214
Elbow Components 215
Valve Components 219
Assembly Routing Components 219
Equipment 221
Exercise 12: Creating and Using Equipment 227

Lesson 9: Electrical Ducting, Cable Tray, and HVAC Routes

Electrical Ducting, Cable Tray, and HVAC Routes 234
Electrical Ducting, Cable Tray and HVAC Components 234
Rectangular and Circular Components 236
Modifying a Routing Library Part 237
Electrical Ducting Routes 238
Cable Tray Routes 242
Routing Component Orientation 243
HVAC Routes 246
Components 246
Coverings 247
In Line Duct Components 249
Transition to Circular HVAC Routes 250
HVAC and Ducting Drawings 251
Exercise 13: Electrical Ducting Routes 254

Appendix A: Review Section

Review of Configurations 258
How Routing Uses Configurations 258
A Note About File References 259
Find References 259
Pack and Go 259
File Management 259
How Libraries Use Configurations 260
Design Tables 260
Design Table Input and Output 261
Review of Top Down Design 262
Parts and Assemblies 262
Editing Options 262
Edit Assembly 263
Edit Part 263
Edit Subassembly 264
Edit Route 264
Assembly Feature 265
Review of Design Library Task Pane 265
Essentials of Using the Design Library Task Pane 266
Directory Structure of the Design Library 266
Review of 3D Sketching 267
Coordinate Systems 268
Orthogonal 3D Sketching 269
Sketching on Selected Planes 271
Creating planes within the sketch 274
Splines 276
